## WORK EXPERIENCE

### ELYADATA- SOFTWARE DATA ENGINEER INTERN (JUNE 2021 - AUG 2021)

-Creating an End-to-End machine learning model for Arabic text dialect classification.  
-Implementing a micro service to serve the trained model and Dockerize it.  
-Creating an interactive map to display prediction results.

**Keywords:** NLP, Python, FastAPI, Docker, Angular.

### GENICAL - DATA SCIENTIST (FEB 2021 - MAY 2021)

Creation of an API from scratch based on deep learning that allows to:  
-Create custom facial recognition models in few seconds just by changing the input images.  
-Recognize different persons and detect their facial emotions.

**Keywords:** Computer vision, CNN, OpenCV, Django REST framework, FaceNet, Tensorflow, YOLO.

### ICOMPASS - SUMMER INTERN (JUL 2020 - SEP 2020)

-Extraction of different Part-of-Speech (POS) syntactic patterns from various Arabic and French files using Python's libraries.

-Web Scraping according to specific pipelines.

**Keywords:** NLP, Spacy, NLTK, Scrappy.

## PROJECTS

### CONTINUOUS INTEGRATION (APR 2021)

Implementation of a continuous Integration chain for a Spring Boot application.

**Keywords:** SpringBoot, Junit, Log4j, Sonar, Maven, Nexus, Jenkins.

### CUSTOMER CHURN (NOV 2020 - JAN 2021)

Creation of a customers classification model based on machine learning for a telecommunications company in order to predict their behaviors.

**Keywords:** Supervised Learning, Xgboost, Random Forest, SVM, Logistic Regression, Voting, Flask

### INTEGRATED PROJECT (JAN 2020 - JUNE 2020)

Development of a warehouse management application on three technologies Web, Desktop and Mobile.

**Keywords:** Java, JavaFX, Symphony, JQuery, Code-nameone, JSON.

## EDUCATION

### 2017 – 2022 ESPRIT: Private School of Engineering and Technologies

SOFTWARE ENGINEERING MAJORING IN DATA SCIENCE

Tunis, Tunisia

### 2017 Imam Moslem High School

BACHELOR IN MATHEMATICS

High honours

## COMPUTER SKILLS

PROGRAMMING	C, C++, Java, Python
FRAMEWORK	JavaFX, Symphony , Spring Boot, Angular, FastAPI
DATABASE	MySQL, PL/SQL, MongoDB
BIG DATA	Hadoop, Spark
MACHINE LEARNING	Classification, Regression, Deep Learning, Computer Vision, TensorFlow, Sklearn
OTHERS	Docker, Github, UML, Scrum, CRISP-DM, REST API

## CERTIFICATIONS

- HCIA-AI . Huawei
- Fundamentals Of Deep Learning . Nvidia
- Deep Learning Specialization . DeepLearning.AI
- Data Science Math Skills . Duke University
- Machine Learning with Python . IBM

## EXTRA CURRICULAR

**Information Management Manager**  
AIESEC Local Committee Bardo (2020)

**Exchange department member**  
AIESEC Local Committee Bardo (2019)

## LANGUAGE

ARABIC	Mother Language
FRENCH	Advanced
ENGLISH	Full professional capacity

## INTERESTS

Handball Camping Travelling Swimming
